

How to play veritech⁶

You need a book, a case, and six tiles.

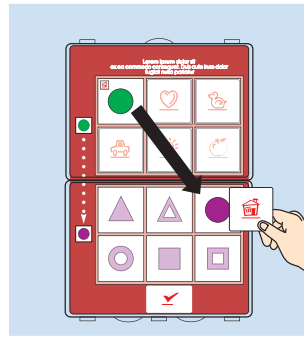

Before you begin:

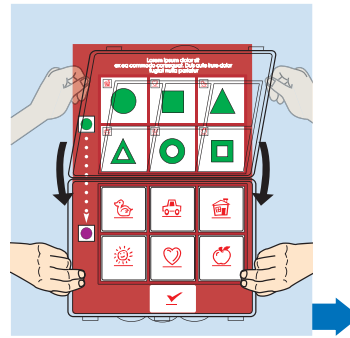

- Open the book to Activity 1.
- Place the empty case over the book.
- The CHECK MARK will cover the answer key.

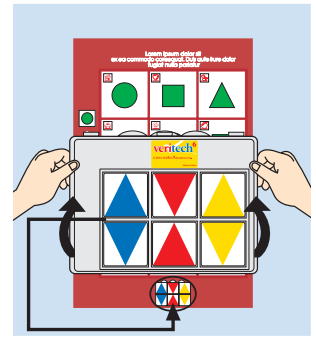

- There are six squares in the top section.
- Place each tile on the square with the same symbol.

- Lift each tile up to see the image below.
- Place the tile on the corresponding image on the bottom page.

- Close the case.

- Turn the case over.
- Check the answer key at the bottom of the bottom page. The pattern on the tiles should correspond to the answer key.

Good job!

Move on to the next game. If any of the tiles aren't in the right place, take them out and try again.
