

CORRELATION SUMMARY: according to the preschoolers learning program.

Through the discovery of an imaginary world full of colour and rich in meaning, the **BABA** Series helps three-year-olds explore and understand the world. They will learn to make associations between sequences of events, objects, shapes, colours, and emotions, as well as to harness their linguistic abilities by mastering new vocabulary words.

This simplified version of the VERITECH system is designed so that children ages 3 and up can easily use it. The collection invites children to apply knowledge based on efficient use of the six game tiles.
